Apple Tree

AURORA

/ /

All of my life I've been hunting
I've been a girl, I've been a boy
Digging my feet into the ground
Like an apple tree
Wanting to live with a purpose
Skin is a word, love is not a sin
people are bad, people are good
Just like the moon is a stone
But it's the star when it's dark
And now she is hiding
If you've been seen what a heart is
you've seen its colour
If I ever knew how we could guide it
I would take care of its children
Become their mother
If I ever knew how we could hide it
Hide it
Let her save the world
She is just a girl
Let him save them all
He is just a body

Apple Tree

1 1

Let her save the world
She is just a girl
Let him save them all
He is just a ~~bad~~ boy
Hunger is quiet, if you do it right ~~now~~
Hunter is loud and predictable
Scaring away every prey
So they are gone
Before the hunter arrives
Would you would kind, and put away your
~~sword~~ - sword
You cannot cut away what we get
You cannot kill what we are
We are not here in physical form
You've seen where the knife is
Its dark location
If you ever knew how we could fight it
(Fight it)
I would cut into our anger
Make pure emotion
If I ever knew how we could hide it
hide it

Let her save the world

She is just a girl

Let him save them all

He is just a boy

Let her save the world

She is just a girl

Let him save them all

He is just a boy

Can you carry the weight of mortality?

The explosions around you are your symphony

Let her save the world

She is just a girl

Let him save them all

He is just a boy

Let her save the world

She is just a girl

Let him save them all

He is just a ~~bad~~ boy.

{A Dangerous Thing}

AURORA / /

Something about you is soft like an angel
And something inside you is violence and
danger

I knew from the moment we met, you
are a dangerous thing

When you are with me I feel like I'm
living

And living besides you can be unforgiving

I knew from the very first step, you're
a dangerous thing.

There's no end to the fall

You keep on getting better, I keep forgetting

There's no love in the end

I hope you will come

I keep on losing feathers, I keep forgetting

There's no love in the end

No love in the end (3)

Something about you is warm and seductive
and when you're with me, you're cold
and abusive.

I knew from the second we met, you're
a dangerous thing. Flame

you're a dangerous flame
There's no end to ^{the} fall
you keep on getting better, I keep forgetti-
-ng

There's no love in the end
I hope you will come
I keep on losing feathers, I keep forgetting
There's no love in the end
No love in the end (6)

I don't think I know myself, without your
help

Oh, I wonder why I have got a heaven
deep inside me

I keep the light on, it keeps me warm
I hate it when I fall for your illusion
of love

I know this is not love

There is no end to the fall, you keep
on getting better

There is no love in the end

I hope you will come

I keep on losing feathers, I keep forgetti-
-ng

There's no love in the end

There's no end to the fall

you keep on getting better, I keep
forgetting.

There's no love in the end

I hope you will come

I keep on losing feathers, I keep
forgetting

There's no love in the end

No love in the end (6)

All Is Soft Inside

AURORA

/ /

I don't know why
But I ~~felt~~ feel down
you need to know
I can't go on
I was a rose
I was an animal
Don't let me change
Don't let me go
All around is stone
All is soft inside
All that I know
Lies within emotion
Words remain unspoken
Lead me through the dark
All that I see
Came to me in colours
Lasted for a moment
Lead me through the dark
All that I know
All I know
Ah ah

I need it all

I don't know where to begin

I carry more than you see

My dreams are bigger than me

please bring me light

I bear a shadow

I call them back to me

So they could feed me

All is stone

And all is soft inside

All that I know

Lies within the emotion

Words remain unspoken

Lead me through the dark

All that I see

Came to me in colours

Lasted for the moment

Lead me through the dark

All that I know

All I know

Ah ah ah ah

Ah ah ah ah

Did you know?

That we're all

Turning softer inside

We can save

What is pure

If the hearts can collide

All that I've ever known

Is that the universe is wild

Is the universe is wild.

Blood In The Wine

AURORA / /

I was given a heart before I ^{was} given
a mind

A thirst for pleasure and war, a hunger
we keep inside

We fell from sky with grace, and life
gave us a sweeter taste

You can drink, you can feast

There's beauty in your beast

The flesh in the fruit and the blood in
the wine

Come on, and feel alive, lover

Come on, and feel the love like a
sinner

Shout it louder, shout it for the ones
who could never say

I won't feel ashamed, mother

Can you break the chains, off her?

Shout it louder, not a sinner, she's
a lover

~~Like you were given your faith,~~
~~before there was made a god~~

I was given a name before I was
given blood

Like you were given your faith before
there were was made a God

Young rivers in your hands and glass
buring in promised lands

You can drink, you can feast

There's beauty in your beast

The flesh in the fruit and the blood
in the wine

Come on, and feel alive, lover

Come on, and feel the love like a sinner

Shout it louder, shout it for ^{the} ones who
could never say

I won't feel ashamed, mother

Can you break the chain, ~~off~~ off her?

Shout it louder, not a sinner, she's a
lover

Come on, and feel alive

Come on, feel the love

Shout it louder, shout it for the ones
who could never say

I won't feel ashamed, mother

Can you break the chain off her?
Shout it louder, not a sinner, she's
a lover

Come on, felt and feel alive, lover
Come on, feel the love, like a sinner
Shout it louder, shout it for the ones
who could never say

I won't feel ashamed, mother
Can you break the chain off her?
Shout it louder, not a sinner, she's
a lover.

{ Walking In The Air }

AURORA 1

I'm walking in the air
I'm floating in the midnight sky
The people far below
They greet us as we fly
I'm holding very tight
So far across the midnight blue
I'm finding I can fly so high above
With you
Far across the world
The villages go by like trees
The rivers and hills
The forest and the stream
Children gaze, open mouth
Taken by surprise
Nobody down below believes their eyes
I'm ~~with~~ walking in the air
I'm floating in the midnight sky
The people far below
They greet us as we fly
I'm holding very tight
So far across the midnight blue
And I'm finding I can fly so high above
With you,

simply say a is first letter of
english alphabet and b is second.
This answer like 2nd grade
answer. then I think about 2-3
sec. and I say a is vowel
and b is consonant. I

• funny how we are free to talk around but we are forced to talk the ground.

* Today I watched a beautiful movie ÷ Lucy Shimmers and the prince of peace.

This could be dream

→ AURORA!

Look up at the light

This could be a dream or it could be real

Dive in to my mind

And don't come up for air, you won't
need it here

Can I move you? Can I serve your fear?

Could you trust love if I prove it's there?

Oh, I need to know it too

And now I don't feel you

So, I lift myself and I close my eyes

And I sing sometimes to know I'm alive

I know I should figure this out on
my own

But if you come back, could you take
me home?

I get back up when the wind is strong

And I know I'm not alone

But I wish I knew how it felt to run

And if you come back, could you take
me home?

Feeling so alive can hurt so very
much

When you're losing touch
But if I touch you, would you feel
it there?

Could I trust love even if I'm scared?

Oh, I wish I could give like I'm
longing to give

Oh, I wish I could live like I'm
longing to live.

And I lift myself and close my eyes

And I sing sometimes to know I'm
alive.

I know I should figure this out
on my own

But if you come back, could you
take me home?

I get back up when the wind

But I wish I knew how it felt to
run

And I know I'm not alone

And if you come back, could
you take me home?

Yesterday 11th result was established and there was a ceremony for it. Whoever's rank is 1-3 (science) or 1-3 (commerce) and 1-5 (Arts) will get one pen and one notebook. I gone there, my rank was 2ndth with 314 numbers.

First arts student with 1-5 rank got prize then commerce (only 2nd rank student was present so he got prize) then science students (only I was ~~present~~ present) so I gone for my prize but there was only a pen no notebook (☹).

Today I gone for class. first I demanded to want to know ^{my} all subject marks. I saw that I got only 58 in Bio, I tell my teacher that ~~my~~ I perform a very good at a in bio, but here I saw I got only 18 marks. Teacher said your copy checked by Shrubti ma'am. you should discuss

about this to her. I talk to
her, she said ~~you~~ do you check
your copy I said no, then
she started searching my Bio
copy. When she started searching
I ~~no~~ occasionally calculating
my marks ~~at~~ ^{from the} Registrar
copy (where all marks determine
of all student Roll no. wise)
I saw that in ~~the~~ Bio in practice
I got 25 and in theory 53 marks
so total mark in Bio is 78 and
total mark is 334. and with 1st
rank.
